## Research Interests

---

Quantitative Macroeconomics, Climate Change, Public, and Labor Economics

## Education

---

<b>PhD Economics</b> , University of Bonn	10/2021 - present
Research visit at the University of Minnesota (invited by Mariacristina De Nardi)	09/2023 - 12/2023
<b>Master Economic Research</b> , University of Bonn	2019 - 2021
<b>MSc Economics</b> , University of Mannheim	2019 - 2021
Exchange Semester at Universitat Autònoma de Barcelona	
<b>BSc Economics</b> , University of Mannheim	2014 - 2017
Exchange Semester at the University of North Carolina at Greensboro	

## Job Market Paper

### Spatial Redistribution of Carbon Taxes

**Abstract:** Policies to slow down climate change are high on the policy agenda and their distributional consequences are actively debated. This paper makes two contributions to the discussion. First, it empirically identifies the spatial dimension between rural and urban households as important for the distributional consequences of carbon taxes, as annual carbon footprints of German households in rural areas are 2.2 tons higher than those of urban households, around 12 percent of an average household's carbon footprint. Second, I build a quantitative spatial general equilibrium model to evaluate different policies of recycling carbon tax revenues on the spatial redistribution and their political support along the transition towards clean technologies. I find that spending carbon tax revenues on lump-sum transfers redistributes from rural to urban households. For a carbon tax of 300 Euros per ton, the difference in the net present value of net transfers amounts to 10,000 Euros. Place-based transfers avoid this spatial redistribution without reducing the speed of transitioning to clean technologies. This has important implications for the political support of these policies, as place-based transfers allow to set higher carbon taxes under the constraint that the policy is beneficial for a majority of households in both regions.

## Conferences & Seminar Presentations

---

**2024:** Verein fuer Socialpolitik, 38th Meeting of the European Economic Association, University of Bonn PhD seminar, 2nd Bonn-Frankfurt-Mannheim PhD Conference, ZEW Public Finance Conference, 1st

Bonn-Berlin PhD Workshop, CESifo/ifo Junior Workshop on Energy and Climate Economics, 17th RGS Doctoral Conference in Economics

**2023:** Macro-Micro Student Workshop at the University of Minnesota, Workshop on Families, Human Capital, and Inequality, 13th ifo Conference on Macroeconomics and Survey Data, University of Bonn PhD seminar, 3rd Catalan Economic Society Conference, 1st Bonn-Frankfurt-Mannheim PhD Conference, 16th RGS Doctoral Conference in Economics

**2022:** Summer School "Financial Intermediation and Macroeconomic Analysis", University of Bonn PhD seminar, IDOS Workshop: Economic Research for Development & Sustainability

## Teaching

---

**Macroeconomics A (Bachelor)** Fall 2021, 2022  
*University of Bonn*  
Teaching Assistant for Moritz Kuhn

**Macroeconomics B (Bachelor)** Spring 2021, 2022, 2023  
*University of Bonn*  
Teaching Assistant for Thomas Hintermaier

## Grants & Scholarships

---

**Best tutor award**, University of Bonn Spring 2023

**PhD Scholarship**, German Research Foundation 10/2019 - present

## Additional Coursework

---

**EABCN Training School - "The Macroeconomics of Climate Change"** Online, 2022  
taught by John Hassler and Per Krusell

**Summer School "Financial Intermediation and Macroeconomic Analysis"** Bonn, 2022  
taught by Dean Corbae and Vincenzo Quadrini

**Summer School "Macroeconomics of Inequality"** Bonn, 2022  
taught by Kurt Mitman and Florin Bilbiie

## Languages & Software

---

**Software:** Julia, Matlab, Stata, Python

**Languages:** German (native), English (fluent), Spanish (basic, A2), Dutch (basic, A1)
